Right to Work: no sponsorship required

PERSONAL STATEMENT

UI/UX designer and front-end developer in the final year of a Computer Science degree at East Delta University. Currently building BusTrack, a checkpoint-based university bus tracker, and Craving, a live social food-discovery app with a small team, while exploring ML and deep learning.

EDUCATIONAL QUALIFICATION

East Delta University - Chattogram, Bangladesh

2022 - 2026

B.Sc. in Computer Science and Engineering

- CGPA 3.64/4.00
- Completed coursework; final thesis approval pending

WORK EXPERIENCE

ClicksNCrumbs - UI/UX Designer

2023 - 2024

- Designed responsive interfaces across 2 web applications, owning everything from low-fidelity wireframes to production-ready mockups
- Ran user research, wireframing and prototyping across product flows, informing design decisions before development
- Performed usability testing and reviewed feedback to improve user experience.

6ixcvlture - Copywriter & Content Planner

2022 - 2023

- Developed strategic social media content for over 10 brands, shaping each brand's voice across platforms.
- Planned and executed monthly content calendars for 5 brands, contributing to significant follower growth over the year.
- Launched more than 10 campaigns focused on brand awareness and audience engagement.

PROJECTS

- **Portfolio:** Full archive of case studies, front-end builds and visual work.
→ <https://munia-portfolio/index.html>

Selected Work

- **BusTrack** — Checkpoint-based university bus tracker (no GPS, USSD gateway). *In progress.* → <https://munsb0t.github.io/munia-portfolio/uicase03.html>
- **Guide/X** — Redesigned the website with proper UX guidance. *Client work.* → <https://munsb0t.github.io/munia-portfolio/uicase01.html>
- **Craving** — Social food-discovery mobile app. UI + front-end. → <https://munsb0t.github.io/munia-portfolio/uicase04.html>
- **Thesis Project** — Vision-Based Waste Classification & Biodegradability Estimation. Built a knowledge-guided multi-task computer vision framework to classify waste images, predict biodegradability, estimate decomposition time bins, and report environment-aware decomposition ranges using ResNet-50, EfficientNet-B3, CBAM, and AG-MTLNet.
- **Academic ML Work:** Customer churn prediction using Random Forest/XGBoost; house price prediction using regression models.

EXTRACURRICULAR ACTIVITIES

MACES - Campus Ambassador

2023 - 2025

- Represented MACES on campus by promoting events and opportunities.
- Actively volunteered at educational sessions and outreach programs as an associate.

East Delta University Computer Club - General Member

2022 - 2025

- Participated in club activities and supported the organization events and workshops.
- Joined in knowledge-sharing sessions and programming contests.

AWARDS & ACHIEVEMENTS

- Gold Certificate, Queen's Commonwealth Essay Competitions · 2021
- Full-Stack MERN Development Certificate · Ostad · 2024

TECHNICAL SKILLS

- **Design:** Figma (proficient), Framer (basics)
- **Front-End:** HTML, CSS, JavaScript, React, Node.js
- **Programming:** Python, Data Structures & Algorithms
- **ML/DL:** Machine Learning, Deep Learning (intermediate)

ADDITIONAL SKILLS

- **Languages:** Bangla (Native), English (Advanced Proficiency), Hindi (Elementary Proficiency)
